

## Covid-19 Policy Statement

---

Since the outbreak of COVID-19 in December 2019, we have all been living in unprecedented times and the virus has had a profound effect on the health, wellbeing, freedom, and financial security of millions of people in the UK.

In line with government recent guidelines Culligan Water has reviewed its Covid policies in June 2021 to ensure the safety and wellbeing of our facilities, staff, employees, customers, and the general public during our day-to-day activities.

Culligan Water Ltd will:

- continue to act according to the current government, NHS, and scientific guidance.
- continue to assess staff social distancing throughout our facilities and at customer sites.
- consult and train staff on changes to covid-19 rules and procedures.
- provide suitable personal protective equipment and cleaning products as may be required to keep our workplaces safe.
- protect fixed workplaces from COVID-19 contamination through various means such as health screening and preventing access to buildings for non-essential people.
- support the mental health of our teams through our existing mental health provisions - using both in-house and external support to their full capacity.

We fully understand that COVID-19 will continue to affect the way we do things for the foreseeable future, and we ask that you help us to keep everyone safe in our communities by complying with the requirements that Culligan Water Ltd and the UK Government put in place.

**Culligan Water Limited is committed to reviewing its policies and good practice annually.**

**This Policy was last Reviewed 24<sup>th</sup> June 2021.**

**Reviewed by Mike Beaumont – Health, Safety, Facilities & Production Manager**

**Approved by Simon Edgar – Operations Director**
